

## **The Courageous Collette and the Case of the Literary Latte Thief**

Once upon a time, in the bustling city of Harmonyville, lived a remarkable girl named Courageous Collette. Known for her bravery and kindness, Collette had an extraordinary ability—she could read minds. But instead of using her gift for personal gain, she used it to help others and fight against injustice.

One day, as Collette walked home from school with her best friend, kylie, a whizz with computers, she noticed something unusual. A new girl in the neighbourhood, scarlet, sat alone on a park bench, looking troubled. Collette focused, tuning into scarlet's thoughts.

"I wish I could tell someone... but what if they don't believe me?" scarlet's thoughts echoed with fear.

Collette exchanged a glance with kylie. "Something's wrong," she whispered.

They approached scarlet, sitting down beside her. "Hey, I'm Collette, and this is kylie. Are you okay?"

scarlet hesitated but then sighed. "I... I think someone is stealing my money which I am earning from my' literary latte book café'.

Collette's eyes narrowed. "Do you remember what he looked like?"

scarlet nodded. "He wore a dark jacket and had a scar on his hand."

kylie immediately pulled out their tablet. "Let's do some research." A few quick searches led them to reports of a man matching scarlet's description—a known thief who had been targeting people and has been stealing from them.

"That's him!" Scarlet exclaimed.

Determined to help, Collette and kylie devised a plan. That evening, they visited the book café blending in as customers. As predicted, the suspicious man appeared, loitering near the counter. Collette focused on his thoughts.

"Another easy job... They never suspect anything."

She turned to kylie. "He's definitely the thief."

kylie nodded, discreetly activating their smartwatch, which had a built-in recording function. They captured footage of the man slipping money from the cash box when scarlet wasn't looking.

The next morning, they presented the evidence to kylie. Shocked but grateful, she contacted the authorities. Thanks to Collette and kylie's quick thinking, the thief was caught, and the stolen money was returned.

scarlet beamed. "I can't believe you helped us so much! Thank you!"

Collette smiled. "You were brave to speak up, scarlet. That's the first step to making things right."

Word of Collette and kylie's heroics spread through Harmonyville. They weren't just ordinary girls—they were protectors of justice. With Collette's mind-reading gift and kylie's tech expertise, they continued to help those in need, proving that courage and kindness could change lives.

From that day on, Collette and kylie remained Harmonyville's unsung heroes, always ready to stand up for what was right. And their legend only grew stronger.

The End.
