

# Sustainability Suki and her Little friend

It was a bright and clear day in Mauritius. Just right for a refreshing walk outside, and that is exactly what literally almost everyone had in mind including Sustainability Suki. Now, you must be wondering what was a superhero like Sustainability Suki doing in Mauritius? Well, Sustainability Suki is on a tour worldwide to make everyone aware of sustainability. As she was walking on the beach, she was quite surprised to see a rich couple littering the boardwalk with a criss packet. Suddenly, a stray dog came running towards the woman and

Said, 'Ma'am you are littering, please pick up that packet and throw it in the bin'. The rich lady said, 'No I will not, I am rich, I can do whatever I want, and no one got hurt. The dog replied, 'Ma'am Just because you are rich it doesn't mean you get to do anything you want, and you are hurting someone - Mother Earth! At this point, Sustainability Suki felt like she had to step in, after all she is Sustainability Suki! Suki said, 'Ma'am, sorry to interrupt, but, I stand by what this dog said. Finally the rich lady agreed, 'Ok fine, I will throw it in the bin'. Thankyou ma'am said both the dog and Sustainability Suki. Suki added, 'Please tell other people to do the same and be

Sustainable. Afterwards, Suki asked the dog if he wanted to be her sidekick. The dog said, 'of course!' He added, 'I love making people aware of sustainability!' Suki said, 'Great!' Then she asked, 'What's your name?' The dog said, 'Hmmm, I really don't have a name, but you can call me, 'Turbo', or Green Turbo! 'Awesome!', said Sustainable Suki. Together Sustainability Suki and Green Turbo, fought many villains like: Professor Litter, Garbage guy, Pollution pistol and so many more. They also made many people aware of sustainability.

The End
