Inquisitive

Indu

The missing  
Inventions

Problem  
Solving  
Papri

One fine day, Inquisitive Indu and Problem-

Solving Papri, were sitting on a bench when they heard about a competition for making inventions.

The judge, who would decide which invention was the best, was their friend Inventive Idris. Inquisitive Indu and Problem-Solving Papri went to the park because that is where the competition was taking place. When they reached the park, they saw that no one had an invention to present. Every kid was empty-handed. "Oh no! Where are the children's inventions?" asked Papri. "It is missing" said Inventive

Idris. "We'll make sure that they have their inventions and that the competition starts" said Indu. So, they started finding out who took the inventions. First, Indu questioned each kid who came for the competition. Indu soon found out that

Sustainability Suki used to keep all the inventions in a safe place. They knew where Suki lived, so they thought of visiting her house. However, when they went there, they found out that she was not there. Seeing people standing outside Suki's house her neighbour told Suki went outside somewhere and will come later. Nobody knew where she went. This was a difficult puzzle, but not for Problem - Solving Papri! She thought and thought until she finally got an Idea. "Everyone knows that Sustainability Suki cares about every living thing, so she might be somewhere surrounded by nature", said Papri. "But where?" asked Indu. "We know she likes places like that, but which place exactly?" said Indu. "The flower garden that is on the other side of the park" Papri suddenly shouted. "Yes, that might be it" Indu said excitedly. So, they went to the flower garden and Papri was right Suki was there.

Indu asked Suki where the kids' inventions were and Suki told that she had given it to Courageous Collette so she could give the inventions to the kids who are in the competition. So Indu and Papri went to Collette's house. They asked Collette where the inventions were but Collette told that she had given the inventions in a big brown box. That's when Indu knew where the kids inventions were. "We did not check if the inventions was at the park so it might be there" said Indu with a smile. Indu and Papri ran back to the park. Indu and Papri told everyone to look for the inventions but none of them found the inventions. At the end when they almost gave up Papri found a big brown box. Indu saw this and told Papri to open it because Collette gave the inventions in a box that looks the same. Papri opened it and found the inventions and the competition started after they thanked Indu and Papri.
