

THE WILDFIRE

1.

It was Sunday Morning and everyone at Ember Wood Village was very happy. Some children were playing in the park. Suddenly, they saw fire spreading towards them. A wildfire had happened in the nearby forest. Nobody knew what to do at that moment. Everyone there got so scared and started running here and there. At that time Compassionate Carlos, and his sidekick Sustainability Suki came by. They found the condition there was very worse. There was a festival in the church.

A lot of people had gathered there from nearby villages also. Many living things got harmed, some even died.

Carlos told everyone to go to the top floor of the tallest building there. They called firefighters and Suki rescued all the plants.

Carlos

and helped animals. Carlos helped the firefighters and the suffering people there. People were very panicked. They called the rescue team from the Government. They arrived after one hour. Carlos was leading the rescue work. He asked the youngsters in the village to gather a force and help the children and ladies. As everyone climbed up the building and were brought to a safe place, Carlos heard a baby's cry from somewhere near. It was from a house near the church. He suddenly caught hold of a rope and swung across the church and landed

inside that house. He was wearing a fireproof jacket. He took the baby in his arms and reached the baby's parents.

Everyone there appreciated Carlos for his bravery.

They were awarded by the Government. 3.

Suki and Carlos were considered as the "Heroes of EmberWood Village" by the people that day onwards.
