

by chad. c. & Anthony

Who is Sustainability?  
Saki? Saki cares about  
the environment. We  
need to give nature  
a helping hand.

Suki helps us breathe,  
She helps pick up  
trash. She helps clean  
the water. Here  
comes her sidekick!

the trash can, the  
trash can helps pick  
up trash. Saki helps  
the word by picking  
up trash, what ways are  
you like me?
